Up to a
\$4,800.00
Value

Select Lathe Info:

- **Select** high speed precision lathes with sizes ranging from 13" x 40" to 30" x 160".
Unmatched Reliability, Unmatched Quality.

Features:

- The spindle is mounted on two precision tapered roller bearings and one ball bearing. This triple bearing support system ensures accuracy and rigidity at all times.
- For maximum stability and minimum distortion, the entire base of the machine is a one piece casting. The high quality Meehanite casting ensures high tensile strength with excellent vibration dampening features.
- Bedways are induction hardened and ground for durability.
- Headstock gears are hardened and ground, made out of Chom-Moly alloy steel for maximum wear.
